### **Regional office opens in Garnett for truckers' convenience**

July 8, 2013

TOPEKA – To better serve south eastern Kansas, the Kansas Department of Revenue will be opening a new regional office in Garnett on Monday, July 8, 2013.

The Anderson County office, 100 E. Fourth Ave., Garnett, will be open 8:30 a.m. to 4 p.m. Monday through Friday. New accounts must call ahead for appointments.

“The new office will help motor carriers in our region save on travel time and expenses,” said Anderson County Treasurer Dena McDaniel.

Prior to the regional offices, truckers could spend all day traveling to Topeka and back to obtain their apportionment tags.”

It is the eighth regional office the department has opened in conjunction with county partners. Motor carriers will be able to pay for their apportioned tags, which were only available through the Motor Carrier Services Department in Topeka before the department began opening its regional offices.

Motor carriers will also be able to apply for their International Fuel Tax Agreement and purchase additional decals at the office.

“This office is one way that the Revenue Department is implementing Gov. Sam Brownback’s vision of making government more convenient for Kansans,” said Revenue Secretary Nick Jordan.

The apportioned tags, commonly called IRP tags, are part of an agreement providing registration reciprocity among the 48 contiguous states, District of Columbia and Canada. The tags apply to motor carriers who travel in more than one jurisdiction, when they are registered through the plan in one jurisdiction the vehicles are able to operate in all the jurisdictions with only one plate and cab card.

The plan was initially developed by the American Association of Motor Vehicle Administrators and is recommended for adoption by all jurisdictions. Kansas became a member of the IRP July, 1980.
