

BIOSCIENCE INITIATIVE

The 2004 Kansas Legislature created the Kansas Economic Growth Act to foster the growth of bioscience businesses in Kansas, to make Kansas a national leader in bioscience, and to make Kansas a desirable location for bioscience entities to locate and grow.

Bioscience is defined in K.S.A. 74-99b33(c) as, “the use of compositions, methods and organisms in cellular and molecular research, development and manufacturing processes for such diverse areas as pharmaceuticals, medical therapeutics, medical diagnostics, medical devices, medical instruments, biochemistry, microbiology, veterinary medicine, plant biology, agriculture, industrial, environmental, and homeland security applications of bioscience and future developments in the biosciences. Bioscience includes biotechnology and life sciences.”

Biotechnology means those fields focusing on technological developments in such areas as molecular biology, genetic engineering, genomics, proteomics, physiomics, nanotechnology, biodefense, biocomputing and bioinformatics and future developments associated with biotechnology. (K.S.A. 74-99b33(h))

Life sciences means without limitation, the areas of medical sciences, pharmaceutical sciences, biological sciences, zoology, botany, horticulture, ecology, toxicology, organic chemistry, physical chemistry and physiology and any future advances associated with the life sciences. (K.S.A. 74-99b33(k))

This bioscience initiative is funded by 95% of the current year Kansas withholding taxes in excess of 95% of the base year taxation (2003) from all bioscience companies and employees employed by state universities associated with bioscience research.

Kansas Bioscience Companies

The Emerging Industry Investment Act (K.S.A. 74-99b33(d)) has defined bioscience company as follows: “a corporation, limited liability company, S corporation, partnership, registered limited liability partnership, foundation, association, nonprofit entity, sole proprietorship, business trust, person, group or other entity that is engaged in the business of bioscience in the state and has business operations in the state, including, without limitation, research, development, sales, services, distribution or production directed towards developing or providing bioscience products or processes for specific commercial or public purposes but shall not include entities engaged in the distribution or retail sale of pharmaceuticals or other bioscience products. The authority and the secretary of revenue shall jointly determine whether an entity qualifies as a “bioscience company” based on verifiable evidence. One of the factors that shall be considered is whether a company has been identified by the department of labor by one of the following NAICS codes: 325411, 325412, 325413, 325414, 325193, 325199, 325311, 325320, 334516, 339111, 339112, 339113, 334510, 334517, 339115, 621511, 621512, 541710, 541380, 541940 and 622110. Such company shall be presumed to be a bioscience company unless the authority and the secretary of revenue agree, based on verifiable evidence, that the company is not engaged in the business of bioscience in the state. A company identified by another NAICS code may be determined to be a bioscience company by the authority and the secretary of revenue based on verifiable evidence that the company is engaged in the business of bioscience in the state.”

Kansas State Universities

The Emerging Industry Investment Act (K.S.A. 74-99b33(o)) has defined state universities as, “state educational institutions as defined in K.S.A. 76-711, and amendments thereto, and the municipal university as defined in K.S.A. 74-3201b, and amendments thereto.”

State educational institution means the university of Kansas, Kansas state university of agriculture and applied science, Wichita state university, Emporia state university, Pittsburg state university, and Fort Hays state university.” (K.S.A. 76-711(a))

Municipal university means Washburn university of Topeka or any other municipal university established under the law of this state. (K.S.A. 74-3201b(c))

The Kansas Department of Revenue and the Kansas Bioscience Authority have worked closely to determine the Kansas bioscience companies. Should a company be registered with the Kansas Department of Revenue with one of the appropriate NAICS codes as provided in K.S.A. 74-99b33(d), such company shall be presumed to be a “bioscience company”, and all Kansas withholding for employees employed by this bioscience company shall be included as bioscience data. It is assumed that the company has reported the NAICS to KDOR as is on file with the Department of Labor.

A company identified by another NAICS code may be determined to be a “bioscience company” by the Kansas Bioscience Authority and the Secretary of Revenue based on verifiable evidence that the company is engaged in the business of bioscience in the state. These companies have been identified under “other”

K.S.A. 74-99b34 allows the state treasurer to make estimated payments to the Kansas Bioscience Authority. The Department of Revenue computes the quarterly estimated payments based on withholding deposit reports submitted to the Department by bioscience companies within a quarterly period. Withholding from the Kansas state universities is computed on an annual basis. Reconciliations are prepared periodically.

Bioscience Distributions

	Other	99	\$6,849,089.82	\$6,506,635.38		\$9,547,410.31	\$9,070,039.78	\$2,563,404.40
	Total	1,017	\$64,186,542.91	\$60,977,215.80	0	\$103,673,925.53	\$98,490,229.26	\$37,513,013.46*
Some NAICS have been grouped together to ensure confidentiality of filer information.								
Number of bioscience companies for 2011 will be computed once the year is complete and a reconciliation has been completed.								
January-December 2011 includes only the first three quarters of 2011 (January-March) (April-June) (July-Sept) to date 12/31/2011.								
*This is the growth in Kansas bioscience company withholding from the base year of 2003 to calendar year 2011 (to date, first three quarters only).								
Due to fiscal year cap limitations, only a portion of this amount has been distributed to the Bioscience Development and Investment fund.								
Please see the summary of bioscience distributions for the actual deposits.
