*Distribution for 5/7/12 included the comparison between the 1st quarter (Jan-Mar) of calendar year 2012 and the calendar year of 2003 divided by four (\$15,148,902.42). This distribution also included a comparison of the withholding from the Kansas State Universities for the calendar year (Jan-Dec) of 2011 and the base year of 2003 (\$3,357,741.68). This distribution was reduced due to 2011 Senate Substitute for House Bill 2014 (section 191) to meet the FY 12 transfer limitation of \$35M which shall take into consideration the \$1M transfer made to The Center of Innovation for Biomaterials in Orthopaedic Research-Wichita State University. Total distribution for 5/7/12, \$18,506,644.10 was reduced by \$18,506,644.10 with actual distribution of \$0. Reduction includes \$15,148,902.42 for bioscience companies which represents the 1st quarter of 2012 and \$3,357,741.68 for state universities (2011).								
*Distribution for 8/8/12 included the comparison between the 2nd quarter (Apr-Jun) of calendar year 2012 and the calendar year of 2003 divided by four (\$12,287,266.72). This distribution was reduced due to 2012 House Substitute for Senate Bill 294 (section 156) which instructs for FY 2013 the first \$1M shall be transferred to the Center of Innovation for Biomaterials in Orthopaedic Research-Wichita State University.								
*Distribution for 8/8/12 was reduced further due to 2012 House Substitute for Senate Bill 294 (section 156) which instructs for FY 2013 the next \$5M shall be transferred to the National Bio Agro-Defense Facility Fund at Kansas State University.

	*Distribution for 11/13/12 included the comparison between the 3rd quarter (Jul-Sep) of calendar year 2012 and the calendar year of 2003 divided by four (\$14,761,107.44). This distribution also included a reconciliation for bioscience companies for 2010 (\$14,696,398.10). This distribution was reduced due to 2012 House Substitute for Senate Bill 294 (section 191) transfer to meet FY 13 limitation of \$35M which shall take into consideration the \$1M transfer made to the Center of Innovation for Biomaterials in Orthopaedic Research-Wichita State University and the \$5M transfer made to the National Bio Agro-Defense Facility Fund at Kansas State University. Total distribution for 11/13/12, \$29,457,505.54 was reduced by \$6,744,772.26, with actual distribution of \$22,712,733.28. However 2013 Senate Bill 171 was passed in May 2013. It further limited the aggregate amount to be transferred from the state general fund to the bioscience development and investment fund to \$12,287,267 (which includes the \$1M transferred to the Center for Innovation for Biomaterials in Orthopaedic Research-Wichita State University and the \$5M transfer made to the National Bio Agro-Defense Facility Fund at Kansas State University) for the fiscal year ending June 30, 2013. Therefore the actual distribution of \$22,712,733.28 was never made.								
	*Distribution for 2/8/13 included the comparison between the 4th quarter (Oct-Dec) of calendar year 2012 and the calendar year of 2003 divided by four (\$15,649,275.34). This distribution was reduced due to 2012 House Substitute for Senate Bill 294 which limits the aggregate amount to be transferred from the state general fund to the bioscience development and investment fund to \$35M for FY 2013. This shall take into consideration the \$1M transfer made to the Center of Innovation for Biomaterials in Orthopaedic Research-Wichita State University and the \$5M transfer made to the National Bio Agro-Defense Facility Fund at Kansas State University. Total distribution for 2/8/13, \$15,649,275.34 was reduced by \$15,649,275.34 with actual distribution of \$0. Reduction includes \$15,649,275.34 for bioscience companies which represents the 4th quarter of 2012.								
	*Distribution for 5/10/13 included a comparison of the withholding from the Kansas State Universities for the calendar year (Jan-Dec) of 2012 and the base year of 2003 (\$3,817,911.48). This distribution was reduced due to 2012 House Substitute for Senate Bill 294 to the FY 13 transfer limitation of \$35M which shall take into consideration the \$1M transfer made to the Center of Innovation for Biomaterials in Orthopaedic Research-Wichita State University and the transfer of \$5M to the National Bio Agro-Defense Facility Fund at Kansas State University. Total distribution for 5/10/13, \$13,495,166.37 was reduced by \$13,495,166.37 with actual distribution of \$0. Reduction includes \$9,677,254.89 for bioscience companies which represents the 1st quarter of 2013 and \$3,817,911.48 for state universities (2012).								
	*Distribution for 5/10/13 was not made due to 2013 SB 171, Section 268 which provides that the amount distributed for FY 13 shall not exceed \$12,287,267. Therefore, the first distribution in FY 2013 was the only one made.								
	*Distribution for 11/12/14 included a comparison between the 3rd quarter (Jul-Sep) of calendar year 2014 and the calendar years of 2003 divided by four (\$7,919,641.97). This distribution also included a reconciliation for 2012 (\$16,383,941.40).

BIOSCIENCE INITIATIVE

The 2004 Kansas Legislature created the Kansas Economic Growth Act to foster the growth of bioscience businesses in Kansas, to make Kansas a national leader in bioscience, and to make Kansas a desirable location for bioscience entities to locate and grow.

Bioscience is defined in K.S.A. 74-99b33(c) as, “the use of compositions, methods and organisms in cellular and molecular research, development and manufacturing processes for such diverse areas as pharmaceuticals, medical therapeutics, medical diagnostics, medical devices, medical instruments, biochemistry, microbiology, veterinary medicine, plant biology, agriculture, industrial, environmental, and homeland security applications of bioscience and future developments in the biosciences. Bioscience includes biotechnology and life sciences.”

Biotechnology means those fields focusing on technological developments in such areas as molecular biology, genetic engineering, genomics, proteomics, physiomics, nanotechnology, biodefense, biocomputing and bioinformatics and future developments associated with biotechnology. (K.S.A. 74-99b33(h))

Life sciences means without limitation, the areas of medical sciences, pharmaceutical sciences, biological sciences, zoology, botany, horticulture, ecology, toxicology, organic chemistry, physical chemistry and physiology and any future advances associated with the life sciences. (K.S.A. 74-99b33(k))

This bioscience initiative is funded by 95% of the current year Kansas withholding taxes in excess of 95% of the base year taxation (2003) from all bioscience companies and employees employed by state universities associated with bioscience research.

Kansas Bioscience Companies

The Emerging Industry Investment Act (K.S.A. 74-99b33(d)) has defined bioscience company as follows: “a corporation, limited liability company, S corporation, partnership, registered limited liability partnership, foundation, association, nonprofit entity, sole proprietorship, business trust, person, group or other entity that is engaged in the business of bioscience in the state and has business operations in the state, including, without limitation, research, development, sales, services, distribution or production directed towards developing or providing bioscience products or processes for specific commercial or public purposes but shall not include entities engaged in the distribution or retail sale of pharmaceuticals or other bioscience products. The authority and the secretary of revenue shall jointly determine whether an entity qualifies as a “bioscience company” based on verifiable evidence. One of the factors that shall be considered is whether a company has been identified by the department of labor by one of the following NAICS codes: 325411, 325412, 325413, 325414, 325193, 325199, 325311, 325320, 334516, 339111, 339112, 339113, 334510, 334517, 339115, 621511, 621512, 541710, 541380, 541940 and 622110. Such company shall be presumed to be a bioscience company unless the authority and the secretary of revenue agree, based on verifiable evidence, that the company is not engaged in the business of bioscience in the state. A company identified by another NAICS code may be determined to be a bioscience company by the authority and the secretary of revenue based on verifiable evidence that the company is engaged in the business of bioscience in the state.”

Kansas State Universities

The Emerging Industry Investment Act (K.S.A. 74-99b33(o)) has defined state universities as, “state educational institutions as defined in K.S.A. 76-711, and amendments thereto, and the municipal university as defined in K.S.A. 74-3201b, and amendments thereto.”

State educational institution means the university of Kansas, Kansas state university of agriculture and applied science, Wichita state university, Emporia state university, Pittsburg state university, and Fort Hays state university.” (K.S.A. 76-711(a))

Municipal university means Washburn university of Topeka or any other municipal university established under the law of this state. (K.S.A. 74-3201b(c))

The Kansas Department of Revenue and the Kansas Bioscience Authority have worked closely to determine the Kansas bioscience companies. Should a company be registered with the Kansas Department of Revenue with one of the appropriate NAICS codes as provided in K.S.A. 74-99b33(d), such company shall be presumed to be a “bioscience company”, and all Kansas withholding for employees employed by this bioscience company shall be included as bioscience data. It is assumed that the company has reported the NAICS to KDOR as is on file with the Department of Labor.

A company identified by another NAICS code may be determined to be a “bioscience company” by the Kansas Bioscience Authority and the Secretary of Revenue based on verifiable evidence that the company is engaged in the business of bioscience in the state. These companies have been identified under the “other” category.

K.S.A. 74-99b34 allows the state treasurer to make estimated payments to the Kansas Bioscience Authority. The Department of Revenue computes the quarterly estimated payments based on withholding deposit reports submitted to the Department by bioscience companies within a quarterly period. Withholding from the Kansas state universities is computed on an annual basis. Reconciliations are prepared periodically.
