INSTRUCTIONS FOR SCHEDULE K-69

GENERAL INFORMATION

K.S.A. 79-32,300 provides a tax credit for tax years 2022 through 2027, which can be claimed against the income, privilege, or premium tax liability of a qualified targeted employment business or of a taxpayer outsourcing work to a qualified targeted employment business. The bill provides the following definitions:

"Targeted employment business" means those employers employing eligible individuals in competitive integrated employment in a competitive integrated setting and who are authorized to do business in Kansas. In order to qualify as a "targeted employment business," the employer must pay earned income to an eligible individual in a calendar year. "Targeted employment business" does not include a community service provider.

"Competitive integrated employment" has the meaning as provided in the workforce innovation and opportunity act, 29 U.S.C. \S 3101 et seq., as defined in 29 U.S.C. \S 3102, 34 C.F.R. \S 361.5 and 29 U.S.C. \S 705.

"Eligible individual" means an individual, including a high school student, who is a Kansas resident, is employed by an employer in a competitive integrated setting, has a developmental disability that has been documented as required by the secretary for aging and disability services and who has agreed to provide the secretary for aging and disability services, or the secretary's designee, information required by the secretary pursuant to the Kansas targeted employment act, or to permit the secretary of revenue to provide such information to the secretary for aging and disability services.

"Developmental disability" means the same as defined in K.S.A. 39-1803, and amendments thereto.

For every hour of work provided by an "eligible individual" the targeted employment business or taxpayer outsourcing work to a qualified targeted employment business earns a tax credit equal to 50% of the wages paid to the eligible individual on an hourly basis, not to exceed \$7.50 per hour. The wage rate used cannot be more than a reasonable or usual and customary market wage rate for a similar job.

The credit is not refundable, cannot be carried forward, and can only be used once each taxable year against the tax liability imposed by only one of the income, privilege, or premium taxes. The maximum amount of all tax credits allowed in each tax year under the Kansas targeted employment act is \$5,000,000.

SPECIFIC INSTRUCTIONS
